

January 17, 2007
For Immediate Release

Automated Industrial Motion (AIM) has developed and is offering turn-key spring coiling systems to the garage door spring industry. Systems include an AIM CNC Coiler, powered wire payoff, cassette tooling, spring support track, in line oven and automation. Equipment can be provided completely tooled, programmed and setup for producing entire families of garage door springs.

Our state-of-the-art equipment offers the latest machine tool technologies including PC controls, Windows-based software, industrial touch screens and part homing sequences. Advantages include high speed coiling, quick part changeovers and standardized tooling proven to support capital equipment investment.

Since 1984, Automated Industrial Motion has been dedicated to serving the spring and wire form industry. AIM manufactures a complete line of CNC coilers and specializes in custom machinery for customers desiring competitive advantage.

For more information on AIM, please contact us by phone at 1-800-933-0404 or by E-mail at kurtw@aimcoil.com
